 “Chaplain Candidate Locke made a substantial contribution to the growth of the Fortress Coffee House ministry to AIT Soldiers. His industriousness and hardworking persistence in this ministry facilitated an exceptional attendance growth from an average of 20-25 soldiers per week to an average of 90-100 per week. His professional expertise in pastoral counseling provided soldiers with definite, positive assistance in personal, family and spiritual growth. He placed soldiers’ needs ahead of his personal convenience consistently scheduling counseling during off hours and weekends to ensure that the soldiers missed no training and received the pastoral care needed. Chaplain Candidate Locke displayed strong loyalty to his supervisory chaplain, his battalion commander, company commanders and enlisted soldiers. In all areas of his ministry and training, Chaplain Candidate Locke demonstrated self-reliance and resourcefulness that attained results regardless of the situation.”
